

## 北京语言大学本科生GPA(4分制)计算公式

### Undergraduate Students' GPA Formula of Beijing Language and Culture University

兹证明, 我校本科生GPA采用下面的公式进行计算, p表示学分绩点, c表示学分, s表示成绩分数。每门课的学分绩点按下面表格中的对应关系计算。

This is to certify that we calculate Grade Points Average for our undergraduate students with the formula below, in which p denotes grade point, c denotes credit and s denotes score. The table below provides detailed grade point of each course.

$$GPA = \frac{\sum(p * c)}{\sum c}$$

课程成绩分数区间 Score Interval	学分绩点 Grade Point	课程成绩分数区间 Score Interval	学分绩点 Grade Point
[90, 100]	4.0	[72, 75)	2.3
[85, 90)	3.7	[68, 72)	2.0
[82, 85)	3.3	[64, 68)	1.5
[78, 82)	3.0	[60, 64)	1.0
[75, 78)	2.7	[0, 60)	0
